## Swimming with the Turtles

Are you feeling adventurous? Do you want to explore Stevensons @ Manase from another perspective? Perhaps you wish to see Stevensons the way a Hawksbill or Green Turtle sees this tropical paradise?

Come join us here in beautiful Savai'i where you don't need to take a cruise or tour to swim with the turtles because the turtles here can be found as close as 10 metres from the high tide mark directly in front of the resort and generally no further than 30 metres from the shoreline. Now that's close !! If you enjoy snorkelling, you'll absolutely have to graduate from fish to sea turtles. Observing sea turtles in their natural habitat is a magical experience. At Stevensons, swimming with the turtles is a popular activity but you'll need to act respectfully around them & don't try to lift them or ride on them. The aim is to get a good view of them without getting too close or making too much noise otherwise they tend to swim away.

We believe we've got 5 resident Green turtles and 4 Hawksbill turtles but many more join them from time to time. Sightings are regular on the incoming or high tide almost every day, year round.

## Fiafia Night

A holiday the Samoan way wouldn't be complete without attending a Fiafia Night. Celebrating the beautiful Samoan culture with traditional food and authentic entertainment. Visitors are given an unforgettable taste of the 3000 year old culture through spectacular singing and dancing. Fiafia translates as happy get together, and the performers are very enthusiastic and proud to be able to share their traditional culture with the audience. The performers wear traditional lava lavas (by the men) and puletasis (women) which echo the vibrant colours of Samoa. Our Fiafia night is held on a Saturday evening and is fun for the whole family. You're invited to come and watch the food for the traditional Umu be prepared and laid at 5.00 pm out the back of the Tusitala Restaurant. We encourage the guests to ask questions and have a go at preparing the food with the staff & then they learn how to weave their own dinner plate for the evening. The Umu is lifted up and ready to eat at 7.00 pm over in the Tusitala Restaurant. While enjoying the local delicacies watch the wonderful performers ( our staff ) perform traditional Samoan dances.

## NEARBY

# ADVENTURE

Swim with the turtles in their natural habitat at the village in Satoalepai, just 3 kilometres away from the resort. We do have turtles residing in the water just in front of the resort as well.

Five minutes drive from the resort, Dive Savaii offers dive trips to the best spots in the area from introductory dives to open water & snorkelling trips for the whole family.

Safotu Village - village walking tours are conducted by our staff through our neighbouring village. This is a wonderful way to gain some insight into village life in Savaii and to meet the local people.

Saleaula Lava Field - let your imagination try to re-create the fiery events of the Mt Matavanu eruptions between 1905-1911. Buried villages & churches can still be found. Only 15 minutes from resort.

Mt Matavanu Crater- located directly behind the village of Safotu, the road is 4WD access only and provides excellent views from the top. It can also be done on foot but is a full days hike.

Dwarf's Cave - According to belief, dwarfs still inhabit this 1 km long lava tube cave and their footprints can still be seen today. A local guide is strongly recommended - 10 min drive from the resort.

Safotu Catholic Church - A Sunday visit to church is a must do experience, 5 min drive away.
